## EDUCATION

SRI KRISHNA INSTITUTE OF TECHNOLOGY  
BE - Computer Science

## TECHNICAL - SKILLS

- Languages**  
JavaScript, TypeScript, HTML, CSS, Sass
- Frameworks & Libraries**  
React, Redux, Bootstrap, Tailwind css,
- Tools & Platforms**  
Git, GitHub, npm, Webpack, Babel,
- Databases**  
SQL, SSMS
- Others**  
Visual studio, Beyond compare

# MANOHAR N

## SOFTWARE ENGINEER

## SUMMARY

Passionate and responsible UI developer with 3 years of experience delivering high-quality web applications. Proficient in developing responsive and interactive interfaces using React, Redux, TypeScript, JavaScript, HTML, CSS, SCSS, and Bootstrap. Comprehensive experience in the full software development life cycle, including requirements gathering, analysis, implementation, testing, and maintenance. Committed to continuous self-improvement and delivering solutions that exceed expectations. Additionally familiar with SQL and SSMS tools.

## WORK EXPERIENCE

- Signant Health** APR 2024 - PRESENT
  - **Associate Operations Software Engineer**
    - As per the PM's requirements, I handled the UI and email rebranding for the studies.
    - Handling Encoder modules for the studies.
    - Maintained SQL scripts, stored procedures, and views using (SSMS) to support application functionality.
    - Conducted unit testing and debugging to ensure software quality and reliability.
    - Documented technical processes and procedures to improve team efficiency and knowledge sharing.
- UI Developer** MAR 2023 - APR 2024
  - Ensure that web applications are responsive and work well on various devices and screen sizes.
  - Debugged and resolved front-end issues, ensuring a smooth user experience
- Render Infotech** SEP 2021 - MAR 2023
  - **Front-end Developer**
    - Experience in creating and maintaining responsive websites using HTML CSS, Bootstrap, Tailwind and JavaScript
    - Designed and developed user-friendly websites, fixed bugs from existing websites and implemented enhancements that significantly improves web functionality and speed.
    - Strong understanding of responsive design principles and techniques for creating mobile-friendly websites, and adaptive web designs using media queries and CSS.
    - Used Firefox Inspector and Firebug to debug live sites.

# PROJECTS

---

## Influx

JUL 2024 - AUG2024

- Led the development and implementation of a platform that connects influencers with brands.
- Utilized a microservices architecture to build the platform, primarily using NodeJS
- Achieved design consistency by implementing a design system from the inception of the project.
- Leveraged NodeJS, ReactJS, and Postgres to develop the platform.
- Utilized Redux for efficient state management, enabling updates to influencer data such as addresses and profile details.
- Managed front-end form handling using Axios for API requests, ensuring smooth data interaction and updates across the platform.

## SKY Yoga

AUG 2023 - OCT2023

- In the process of building a student and course management system, which will be used in multiple locations across the world.
- Created dynamic and interactive web applications using HTML, CSS, JavaScript, and React.
- Create and maintain reusable and modular React components.
- Implement state management and props passing between components.
- Utilize state management libraries such as Redux to manage the state of the application.
- Ensure that web applications are responsive and work well on various devices and screen sizes.
- Debugged and resolved front-end issues, ensuring a smooth user experience.
- Developed user-friendly websites, fixed bugs from existing websites and implemented enhancements.
