SUMMARY

Passionate and responsible UI Developer with 3.5+ years of experience building high-quality, responsive, and interactive web applications. Proficient in React, Redux, TypeScript, JavaScript, HTML, CSS, SCSS, and Bootstrap. Skilled in the full software development lifecycle, from requirements gathering and analysis to implementation, testing, and maintenance. Dedicated to continuous learning and delivering exceptional user experiences. Additionally experienced with SQL and SSMS tools.

TECHNICAL SKILLS

React.js, Redux Toolkit, HTML, CSS, Scss, JavaScript, Tailwind, Bootstrap, Git, GitHub, npm, SQL, SSMS, PostgreSQL, Visual studio, Postman

PROJECTS

Weather Forecasting App

DEC2024 - JAN2025

- Developed a real-time weather forecasting app using React and Redux Toolkit Query, integrating the OpenWeatherMap API for dynamic weather updates.
- Designed a responsive and interactive UI with current weather details, hourly forecasts, and a 5-day forecast for an intuitive user experience.
- Implemented advanced search functionality with auto-suggestions, enabling users to quickly find and select cities.
- Visualized weather data using Chart.js, displaying temperature trends (line chart) and humidity levels (bar chart) for better data interpretation.
- Optimized performance and usability by creating custom utilities for unit conversion, implementing real-time clock updates, and using efficient data flow management.

WORK EXPERIENCE

Signant Health

MAR 2023 - Present

Associate Operations Software Engineer

- Led UI and email rebranding for multiple studies based on project requirements.
- Developed and maintained encoder modules to support study-related applications.
- Managed SQL scripts, stored procedures, and views using SQL Server Management Studio (SSMS) to enhance data processing and application performance.
- Conducted unit testing and debugging to ensure software quality and reliability.
- Created and maintained technical documentation to streamline processes and improve team knowledge sharing.
- Troubleshoot and resolved front-end and back-end issues, enhancing user experience and system stability.

Render Infotech

SEP 2021 - MAR 2023

Software Engineer

- Developed and maintained responsive websites using HTML, CSS, Bootstrap, Tailwind, and JavaScript, ensuring cross-device compatibility.
- Optimized website performance and functionality by fixing bugs, implementing enhancements, and improving page load speeds.
- Utilized browser developer tools like Firefox Inspector and Firebug to debug and troubleshoot live websites efficiently.

EDUCATION

Bachelor of Computer Science Engineering

Sri Krishna Institute of Technology, Bangalore
